Cole McLean

Lone Tree, Colorado, United States business@cole-mclean.com 720-717-9171 in/cole-mclean cole-mclean.com/

SUMMARY

IT professional and Information Science student with hands-on experience in system administration, server infrastructure, DNS management, networking, and cloud environments, with additional experience in application development and automation.

EXPERIENCE

Corporate IT Intern (Application Developer)

Vizient Inc. **June 2025 - August 2025, Centennial, CO**

- **Engineered full-cycle application development** of the Product Toolbox over a 12-week internship, leveraging Microsoft Power Apps, Power Automate, SQL Server, and SharePoint to streamline process automation.
- **Collaborated with cross-functional teams** to gather requirements and design intuitive, user-friendly interfaces tailored to employee needs.
- Automated **data transfer workflows** between SQL Server and SharePoint using Power Automate, improving efficiency and accuracy.
- Authored **documentation and training materials** to support adoption and maintainability, publishing V1 to the company intranet.

IT Help Desk and A/V Student Technician

University Of Colorado Boulder **February 2025 - Present, Boulder, CO**

- **Provide technical support** to students, faculty, and staff by troubleshooting hardware, software, and AV systems.
- **Assist in deploying and maintaining** computer systems, peripherals, and classroom technology across campus.
- **Collaborate with team members** to resolve issues and enhance IT services for the campus community.

Digital Transformation Intern

MAC Insurance & Financial Services, Inc. **May 2024 - August 2024, Centennial, CO**

- **Trained employees** on financial and organizational tools, including E-Money, Redtail, Box, and Nitrogen, improving digital adoption.
- **Assisted in the development and rollout** of a new CRM system to streamline client and data management.
- Provided **technical support and resources** to ensure smooth adaptation to new digital workflows.

PROJECT

Personal Website & Webserver

cole-mclean.com/ • August 2020 - Present

- Designed and implemented **3D interactive elements** using Three.js.
- Deployed the site on a **custom domain (cole-mclean.com)** using the Pterodactyl panel and personal server infrastructure.
- Deployed a **self-hosted webserver** on Ubuntu Linux using the Pterodactyl panel to run personal projects and game servers.
- Developed practical skills in **server administration, deployment, and domain configuration.**

Product Toolbox

Vizient Inc. • June 2025 - August 2025

- Developed an internal application using **Microsoft Power Apps** and **Power Automate** to centralize company resources.
- Automated **data transfer workflows** between SQL Server and SharePoint, reducing manual effort and errors.
- Built a **front-end and back-end database** to streamline employee access to company tools.
- Integrated **AI-generated application descriptions**, improving clarity and usability for employees.
- Developed practical skills in **Full-Stack Development, Automation, and AI Integration.**

EDUCATION

Bachelor of Science in Information Science

Minor in Business • University Of Colorado Boulder • Boulder, CO • 2026
