# Cole McLean

Denver, Colorado, United States business@cole-mclean.com 720-717-9171 linkedin.com/in/cole-mclean cole-mclean.com/

## SUMMARY

IT professional with hands-on experience in network configuration, Linux and Windows system administration, server infrastructure, DNS management, and cloud environments, plus endpoint analytics and automation.

## EXPERIENCE

### Corporate IT Intern (Data & Endpoint Analytics)

**Vizient Inc.** **June 2026 - August 2026, Centennial, CO**

- Analyzed enterprise endpoint telemetry in **Nexthink** to identify root causes of device performance issues and guide remediation.
- Built scripts and Nexthink remote actions to support endpoint operations, including a **battery health audit deployed across Vizient's ~7,000-person enterprise** to identify devices eligible for warranty replacement.
- Created **device-health dashboards** for IT leadership, translating fleet performance data into actionable insights.
- Collaborated with service desk staff to turn recurring ticket patterns into detection logic and automation targets.

### IT Help Desk and A/V Student Technician

**University Of Colorado Boulder** **February 2025 - April 2026, Boulder, CO**

- Resolved hardware, software, and AV issues for students, faculty, and staff using **ServiceNow**.
- **Migrated 150+ campus systems** to Windows 11 using standardized CU imaging configurations.
- Deployed and maintained computers, peripherals, and classroom technology across campus.

### Corporate IT Intern (Application Developer)

**Vizient Inc.** **June 2025 - August 2025, Centennial, CO**

- Developed the Product Toolbox, an internal **application cataloging approved and restricted software** for company-wide use, using Power Apps, Power Automate, SQL Server, and SharePoint.
- Automated data workflows between SQL Server and SharePoint, replacing manual data transfer and reducing entry errors.
- Published V1 to the company intranet with user documentation and training materials to support adoption and maintainability.

### Digital Transformation Intern

**MAC Insurance & Financial Services, Inc.** **May 2024 - August 2024, Centennial, CO**

- Trained employees on **E-Money, Redtail, Box, and Nitrogen** to support adoption of business tools.
- Assisted with the rollout of a CRM system, configuring user accounts, permissions, and workflows to improve client and data management.
- Documented setup procedures and provided day-to-day technical support, including software installation and hardware troubleshooting.

## PROJECT

### Self-Hosted Infrastructure & Personal Website

cole-mclean.com/ · August 2020 - Present

- Designed and operate a self-hosted Ubuntu Linux server hosting personal projects and game servers, configured behind an NGINX reverse proxy with Cloudflare DNS across multiple domains.
- Diagnosed and resolved a NAT hairpinning issue preventing internal clients from reaching externally-published services.
- Built and deployed a personal portfolio site using React, Vite, and Three.js, served from self-hosted infrastructure.
- Automated TLS certificate issuance and renewal via Certbot across multiple domains, eliminating manual expiry-driven outages.
- Automated site deployment via GitHub Actions to self-hosted infrastructure.

## EDUCATION

### Bachelor of Science in Information Science

Minor in Business · University Of Colorado Boulder · Boulder, CO · December 2026

### Bachelor of Science In Commercial Aviation

University Of North Dakota · Grand Forks, ND · 2024

- Earned Private Pilot License at UND; transferred to CU Boulder to pursue B.S. in Information Science
